# My projects this semester

Samuel Moravec 3.AVE

Pumpkin man:

Group project involving a gag with a pumpkin man and a cat
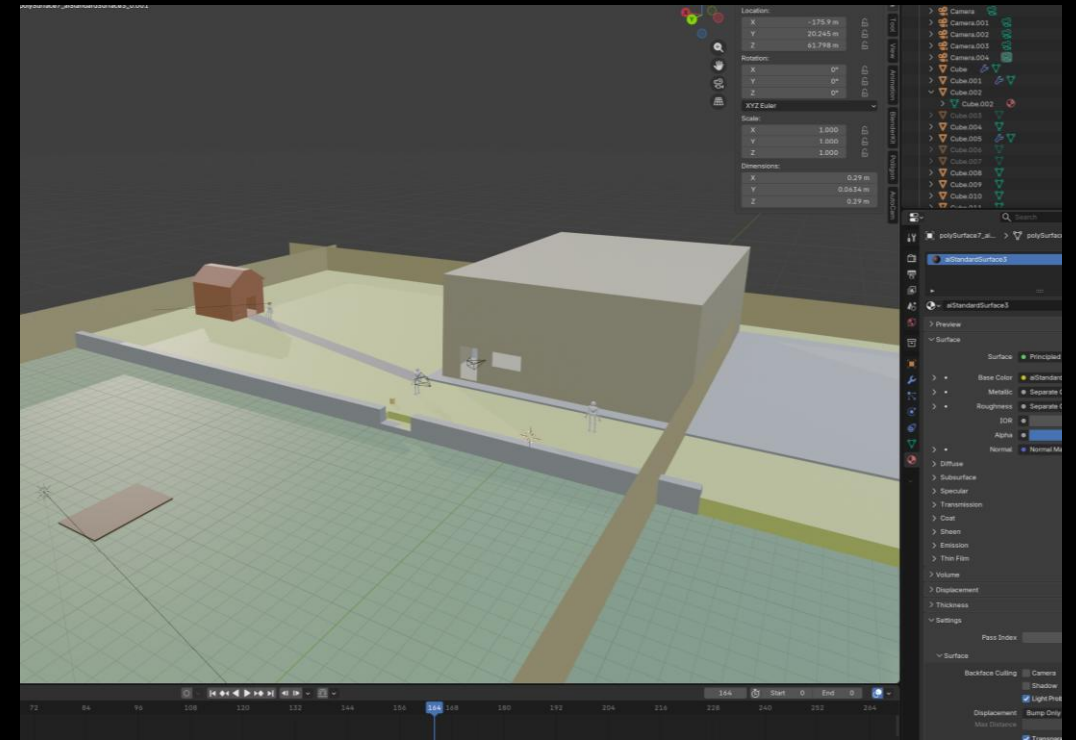

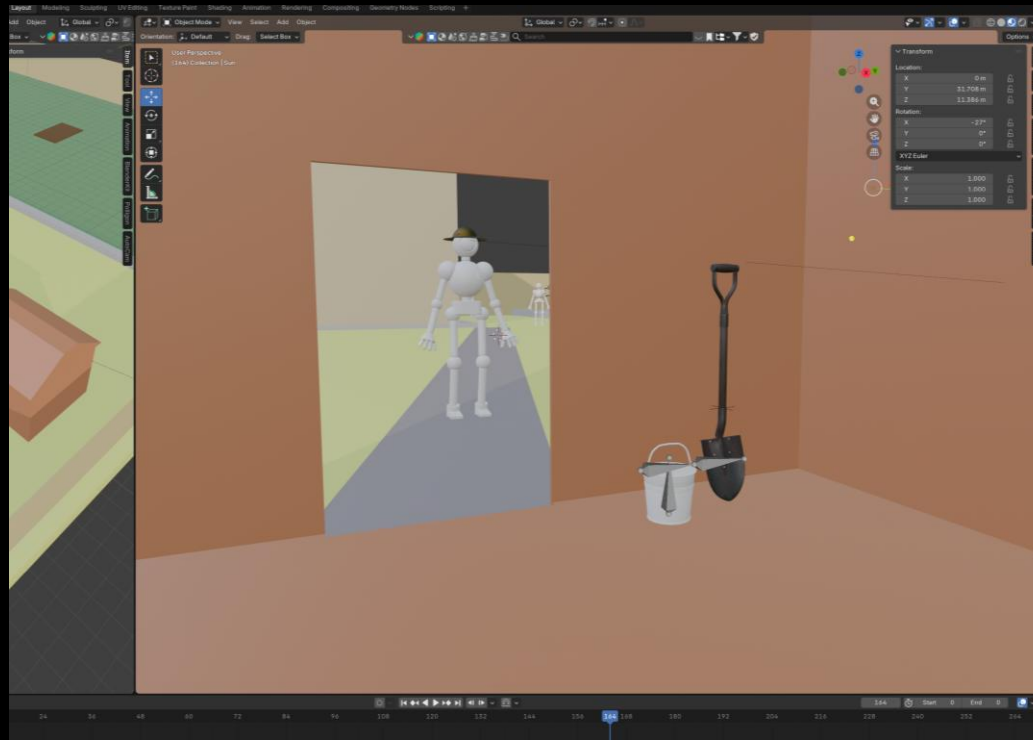

Amelie

- Color grading in DaVinci Resolve

Extended version of my second year film
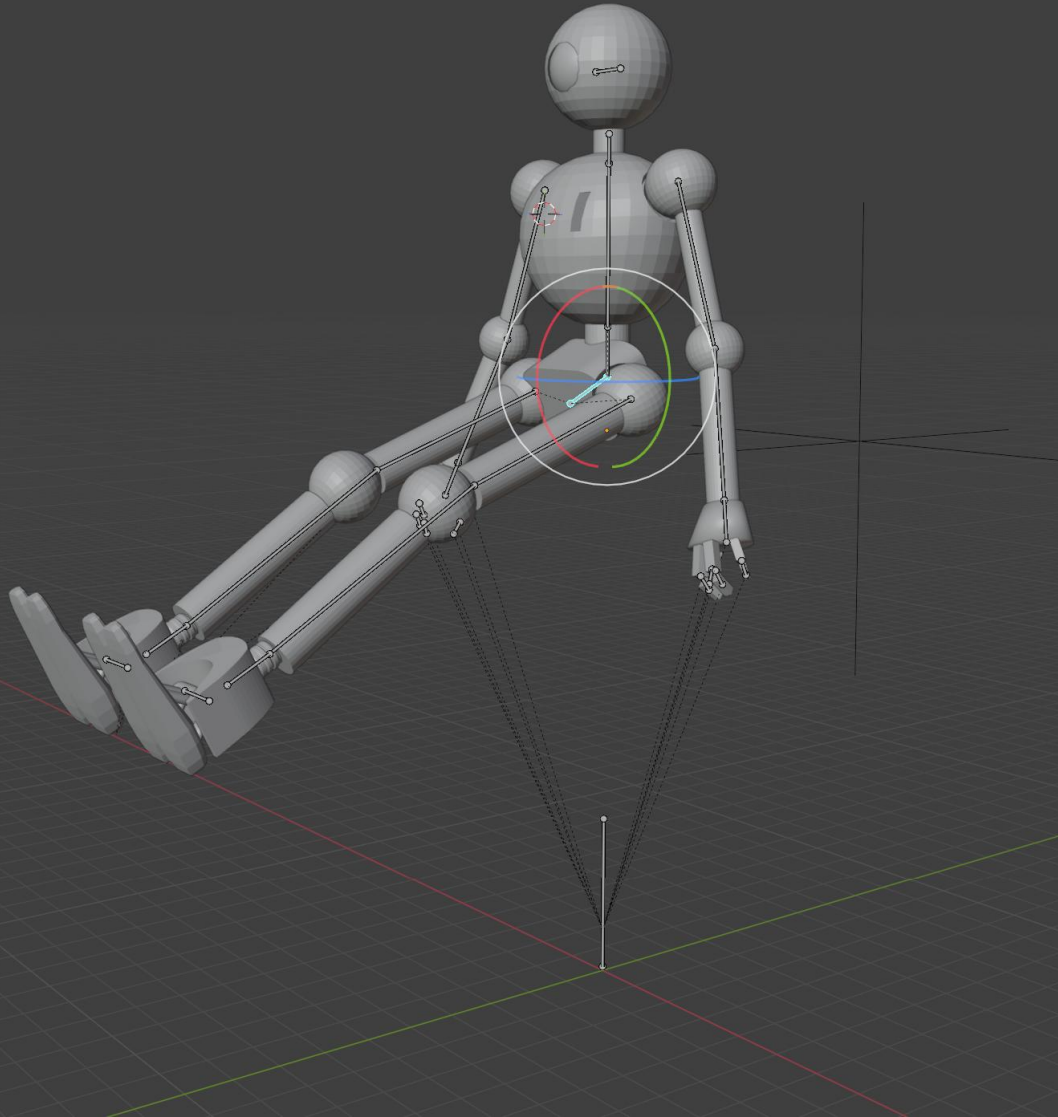

Almost 30 seconds of additional footage

Cyberpunk render:

- Testing my lighting skills and use of downloaded assets

Layout for my final film:

- Used to better prepare shots and editing

- See what works and what doesn't

- Very simple and easily modifiable objects

Test rig for layout

- Used to better help recreate poses and animations for the final film

That's all folks

Except for the projects we will
now watch :)
